

Pre-QEC 2023 - Software Engineering (10 points)

Scenario

You need to demonstrate to the Potato Cloud Fest organizers that you are a good software engineer. What is the difference between a software engineer and a computer engineer? The 1 Million question to which no one in this universe has managed to answer it without falling into a debate to either finish what is better between software engineering and computer engineering. It's finally time to put an end to this debate: Software Engineering is the winner of course.

It's time to show to computer engineering the chasm that separates us!! For this you will have to answer theoretical questions.

Precision

Questions are found in `question-<#>` folders and each folder has a `question.md` file and an `answer.md` file. You must fill in your answers in the `answer.md` file and include it in your submission.
